# E-Z Change Wordbar Features & Benefits

### Ideal Identification Signage
Provides an ideal means for conveying secondary site identification, directions, and information

### E-Z Change System – Labor Saving Design
A specially designed two-part mounting extrusion with removable fasteners makes for quick and easy changes to all wordbars regardless of size or placement on the sign.

### Variety of Sizes & Options
Wordbars come in 2 ¼", 4", 6", 8", 10", 12", 15" or 18" bars. Can be Single or Double Sided Create custom designs and configurations with our variety of post designs including: round, square, radius, fluted, corner slot, and double slot

### Versatility
Can be used in conjunction with our other sign systems in a number of configurations

### Manufactured From High Quality 6063T5 Alloy Aluminum
All product components and hardware made from high-quality, light-weight, corrosion-resistant materials

### No Visible or Exposed Fasteners
Concealed locking squares hold the frame securely in place

### Easy Assembly & Installation
Frame assembly slides into slotted post for easy assembly

### Long Lasting – Easy Maintenance
Post and panel signs are easily maintained in the field and will not warp, rot, or decay like wood or PVC systems.

### Nine Standard Paint Colors
Choose from our nine standard paint colors (satin finish) using Matthews Paint poly-urethane enamel formula developed for application to metal signage components. Custom colors and gloss finishes available at additional charge.
