

HID Wilderness Signage

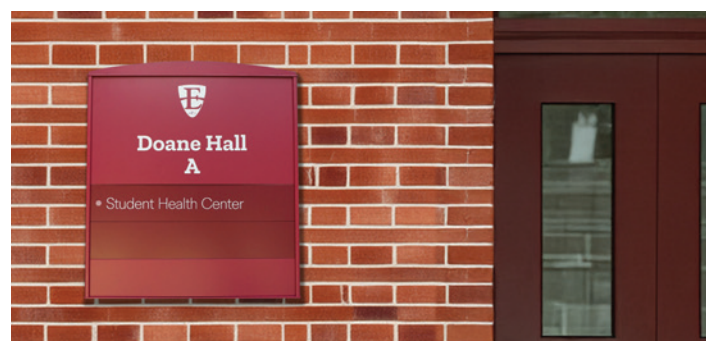

- » Wall Mount
- » Outdoor Signage
- » Aluminum Frame
- » Changeable Panel
- » Weather Resistant
- » And More

The perfect solution for a changeable exterior building directory with a slim profile. Comprised of aluminum, the HID Wilderness is a great accent for any building entry. Graphics can easily be applied with vinyl or using a flatbed printer, to meet the facilities' needs. Panels can be designed in a variety of different heights, with the minimum being 1" and maximum horizontal dimension of 24".

Installation of the HID Wilderness is a breeze with pre-drilled mounting holes. These holes can be accessed by simply removing the top aluminum cap, using the provided thumb screws.

All signage is designed, manufactured and assembled in the USA.

HID WILDERNESS
