

Acrylic Projection Mount w/Sleeve

INSTALLATION INSTRUCTIONS*

Minimum recommended screw size is #6; maximum #10.
 *Mounting screws and anchors are not provided.

1

Use a level to place the sleeve (A) into its intended location and mark the mounting hole locations.

2

Using the marks from step 1, drill and install appropriate screw anchors for the application. (not included)

3

Fasten an end cap (C) to the sleeve (A) using the provided #4 screws (D).

4

Secure sleeve to wall using the appropriate fasteners for the application.

5A

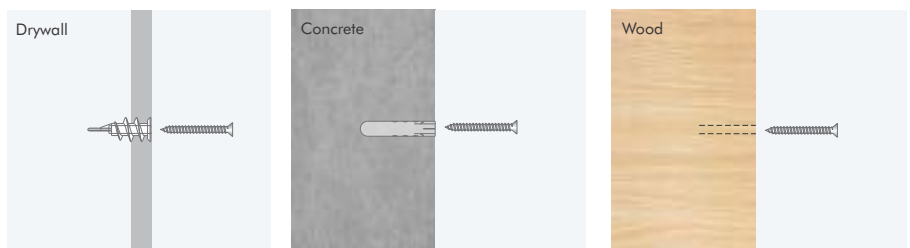

Slide in the bracket (B), then secure an end cap (C) to the sleeve (A) using the provided #4 screws (D).

!

Notice: If there is not enough clearance to the ceiling, simply rotate the sleeve (to where the previously fastened cap is on the top) and work upward.

INCLUDED HARDWARE:

Sleeve (A), Bracket (B), End Caps (C), #4 Screws (D)
